

Sytewise Surveyors

In the day to day management of any property information is king. And the assessment of your assets with a regular check on their status keeps you ahead of the curve. This is where the Sytewise Surveyor enters the process.

Sytewise Surveyors are a special kind of service provider who is available and trained to evaluate property assets. They interact with the Survey Portal where they locate each fixture in a particular trade. Once an issue is identified the surveyor can use GPS or a floorpan to identify precisely which fixture and part is in question and flag it for issues. They can also choose to take photos or add notes to their report.

The surveyor's input immediately reflects on the property, fixture and part. If they created notes or uploaded images those are also added to the appropriate fixture and part.

Creating A Surveyor

Go to the Surveyors page and expand the section "Create a new surveyor". This will reveal this form.

Create A New Surveyor

Company Name	Login Username
<input type="text" value="Company Name"/>	<input type="text" value="Unique Username"/>
Phone Number	Password
<input type="text" value="Phone including areacode"/>	<input type="text" value="Password"/>
Company Email	Physical Address (Optional)
<input type="text" value="email address"/>	<input type="text"/>
	Description (Optional)
	<input type="text"/>

All the fields are required but the address and description. The login username will need to be unique within the entire Sytewise system and the form will let you know if you need to choose another login name.

Once you've created a surveyor you can start sending surveys.
